MARY FAY PENDLETON K-8 SCHOOL, MASTER PLAN AND NEW CAMPUS

Oceanside, California

Located on the Camp Pendleton, Marine Corps Base this school was built in 1954 for 361 students. Now with a current enrollment of 940 students, the campus was named one of the most-overcrowded base schools in the nation. Many classes are being held in portable buildings rather than original school buildings. This existing campus will be demolished and new buildings and facilities will be rebuilt in its place. Roesling Nakamura Terada Architects, Inc. (RNT) has designed the new campus to include new classrooms, upgraded educational technology, additional space for art, music and band classes and enhanced student and bus drop-off areas. As a military base school, the campus will be designed to abide by DOD anti-terrorism standards.

Team

Client/Owner:
Fallbrook Union
Elementary School District
Frank Stoudek
Director of Facilities
T: 760.731.5436
Email: fstoudek@fuesd.org

Architect of Record:
Roesling Nakamura Terada
Architects, Inc. (RNT)

Principal-In-Charge:
Chikako Terada, Architect,
LEED AP BD+C

Project Manager:
Rommel Olaes, AIA, LEED AP

Job Captain:
Gemma Zamora Hsiueh,
LEED AP

Civil Engineer: SWS Engineering

Structural Engineer: KPFF

Mechanical & Plumbing
Engineers: DEC Engineers

Electrical Engineer: EPI

Environmental Engineer:
Dudek

Geotechnical Engineer:
Southern California Soil & Testing

Food Service Design:
Food Service Design Group

Fire Engineers: Jensen Hughes

Landscape Architect: landLAB

Delivery Method:

Design-Bid-Build

Cost:

\$45,000,000

Size: 95,100 SF facility

Completion Date: 2017 (est.)

Scope of Services

Master Plan, Design Charrette,
Programming, Construction
Documents
