# Laser VisionCare[SM] Program

With the VSP Laser VisionCare Program, you'll enjoy a safe and successful path to better vision. In addition to fully covered visits before and after your procedure to your VSP® doctor, you'll get special pricing on services from a VSP-contracted laser vision center.

VSP
Vision care for life

$ Enjoy Discounted Pricing[1]

VSP offers special pricing with participating centers, which means up to hundreds of dollars in savings for you. Contact a center near you to learn more about their pricing.

How to Use Your Benefit

1. Visit **vsp.com** to learn what to expect during your procedure. If you don't already have a provider, you can also find a VSP Laser VisionCare doctor and confirm your eligibility.

2. Make an appointment with a participating VSP doctor to schedule a complimentary screening. If you're a candidate for laser surgery, your VSP doctor will provide pre-operative care, coordinate your procedure with a VSP-contracted laser vision center, and co-manage your treatment plan.[2]

3. After your procedure, be sure to return to your VSP doctor for post-operative care and ongoing management of the health of your eyes and vision. You may be able to use your VSP frame benefit for non-prescription sunglasses to protect your eyes from the sun. Ask your VSP doctor for details.
